

VINÍCIUS DOS SANTOS OLIVEIRA

Brasília, DF - Brazil • Available for Remote Work • +55 (61) 99902-9688 • 3izuna@gmail.com • linkedin.com/in/viniciussant07 • github.com/santv7 • sant-portfolio.vercel.app

PROFESSIONAL SUMMARY

Software Analysis and Development student focused on Software Engineering and Full Stack Web Development. Hands-on experience building web applications and RESTful APIs using React, TypeScript, Node.js, Express, and PostgreSQL. Proficient across the entire development lifecycle: responsive UI componentization, API architecture, authentication, access control, and relational database persistence. Demonstrated expertise in Clean Architecture, Prisma ORM, JWT, and agile practices (Scrum, Kanban, Git/GitHub).

Target Role: Software Engineering Internship or Junior Position (Full Stack, Frontend, or Backend).

EDUCATION

Systems Analysis and Development — Universidade Católica de Brasília (UCB)
2nd Semester | Expected Graduation: June 2028 (Start: February 2026)

TECHNICAL SKILLS

Languages:	TypeScript, JavaScript, Python, SQL
Frontend:	React, HTML5, CSS3, Tailwind CSS, React Router, Context API
Backend:	Node.js, Express, RESTful APIs, JWT, RBAC, bcrypt, Data Validation, Clean Architecture
Databases:	PostgreSQL, MySQL, Prisma ORM, Relational Data Modeling
Tools & Agile:	Git, GitHub, Scrum, Kanban

RELEVANT PROJECTS

Financial API | TypeScript, PostgreSQL, Prisma ORM, Node.js, Express

- Engineered a resilient RESTful API featuring 9 endpoints for financial management and transaction processing, applying Clean Architecture principles.
- Implemented secure authentication and authorization mechanisms using JWT, bcrypt password hashing, and Role-Based Access Control (RBAC).
- Architected relational database schema and managed data persistence in PostgreSQL using Prisma ORM.

Ecommerce Freela | React, TypeScript, Tailwind CSS, React Router

- Optimized web application performance, reducing payload size by 58% (from 16.46 MB down to 6.86 MB) through asset and media refactoring.
- Developed responsive, accessible user interfaces using React and Tailwind CSS, leveraging reusable component architecture.
- Managed global application state and client-side routing using Context API and React Router.

Instagram API | TypeScript, PostgreSQL, Node.js, Express

- Built a scalable RESTful API with 6 endpoints for user profile management and social media posts.
- Configured secure JWT-based authentication and flexible route protection via RBAC.
- Modeled data schemas and integrated PostgreSQL persistence layer using Prisma ORM.

CERTIFICATIONS

Software Testing & QA • React Development • Mastering JavaScript • Algorithms & Programming Logic • Web Development

LANGUAGES

• **Portuguese:** Native | • **English:** Intermediate (B1)
